

#### Brief Introduction

- Standing Up right with an easy 1 finger-touch function
- Being agile and mobile with front wheel drive system
- Relaxing in a comfortable reclining position

Other Angles

## The Freedom to DO it

Standing up and interacting with people and the surrounding environment shouldn't be a distant dream for physically challenged people. The KARMA SMFE power standing wheelchair makes it all possible; boundless freedom, enjoyment and independence regained.

The SMFE standing wheelchair is a compact power wheelchair to help you with your daily activities. With SMFE, you can stand up independently and drive around easily.

#### BENEFITS

1. Activates circulation system and improves cardio-pulmonary function.
2. Helps prevent decubitus sores.
3. Improves bowel regularity and function.
4. Helps bladder and intestinal motility.
5. Reduces contractures and ankylosis.
6. Helps prevent atrophy of the leg muscles.

#### FUNCTIONS

### 1. POWER RECLINE FUNCTION

The power recline function provides a wide angle adjustment of 80°~120° with excellent back support. In a reclining position, the user can redistribute the weight on the buttocks, reposition his or her body to increase comfort and reduce stress.

### 2. FRONT WHEEL DRIVE

SMFE is an agile front wheel drive wheelchair. The minimum turning radius is only 65 cm thus allowing for movement and turning around in the smallest of spaces.

### 3. SWING-AWAY CONTROLLER

(1) The swing-away controller provides custom position and can be moved according to user requirements for better maneuvering and shifting.

(2) 4 way adjustable: up, down, forward and backward.

### 4. FLIP-BACK ERGONOMIC ARMREST

(1) The armrest is height-adjustable and can be flipped back when the user is to be moved.

(2) Wider ergonomic armrest pad provides stable and comfortable elbow placement.

(3) 5 armrest height adjustment levels: from 19 cm to 27 cm.

#### 5. DRIVE AND BRAKE

- (1) 50 Ah\*2 high-efficiency battery and 6A charger.
- (2) In addition to solenoid brakes, SMFE comes with a hand brake for parking mode which provides additional safety.
- (3) Wheelchair driving speed is 10 Km/hr maximum when it is in a sitting position. Driving speed is reduced to 5 Km/hr when the wheelchair is in a standing position.

#### 6. KNEE SUPPORT

Knee support feature supports lower limbs, stabilizing the center of gravity and preventing accidental sliding:

- (1) Adjustable height of knee support with 3 levels.
- (2) Depth and width adjustment of knee support system.
- (3) Depth and angle adjustment of knee support pad.

#### 7. ADJUSTABLE CHARACTERISTICS

SMFE integrates many adjustable functions in its design to meet individual user requirements:

- (1) Adjustable seat width from 40 cm, 44 cm
- (2) Adjustable seat depth from 45 cm, 48 cm, 51 cm
- (3) Adjustable footplate height with 5 levels.  
(Foldable footplate saves space.)

#### 8. VR2 CONTROLLER

VR2 is a light and power saving controller that complies to Germany TUV and US FDA tests.

#### 9. MAXIMUM USER WEIGHT : 120 kg

#### 10. ADDITIONAL ACCESSORIES

SMFE comes with a number of accessories that include, H-Shaped Seat Belt, Shark controller, 8A Charger, Aluminum Wheel Rim to name a few.
